

GREENING

GODALMING

Greening Godalming

The community of Godalming are taking positive action to resist climate change. Every little action helps to reduce our carbon emissions.

Commit to at least five of these challenges, then please display the logo side of this card in your window. Already doing 5 challenges? Put your card up in the window and see how many others you can get to join in!

- ☐ **Walk or cycle if the journey is less than a mile** and you could save **£10 per year** and prevent **22kg of CO₂** being released
- ☐ **Turn off taps when brushing teeth.** The water that runs down the plug hole has been filtered, cleaned and pumped, which uses energy too. **Save a massive 4.23 tonnes of water** and **up to £11** and **2.9kg of CO₂**
- ☐ **Turn the thermostat down by 1° C** and **save £50** and **330kg of CO₂**
- ☐ **Turn off lights** when you leave a room and save **£6 each year** and stop **23kg of CO₂** going into the atmosphere
- ☐ **Boil only the amount of water you need.** This could **save £6** and **29kg of CO₂**
- ☐ **Turn off all inactive appliances and standbys** and **save £32** and stop **130kg of CO₂** being pumped into the atmosphere
- ☐ **Top up loft insulation to a depth of 270mm** and **save £45** and **300kg of CO₂**
- ☐ **Reduce each normal shower time by one minute**, reducing 4733 litres of water used and **save up to £22** and **44kg of CO₂**
- ☐ **Draught proof around doors and windows** and **cover letter boxes** and **key holes** **save up to £25** and **150kg of CO₂**

We will be counting the cards between the 5th and 18th of April to work out how much CO₂ we have saved together.

By participating, you can become a part of the solution to climate change and save money on your energy bills too.
